*Privilège*  
SIGNATURE **580**

The Privilège team proud of the first Signature 580

It is a true delight for the team here at Privilège finally to be able to show our exquisite new Privilège Signature 580. A yacht on this scale demands to be admired. She is capable of encapsulating the aspirations and hopes of even the most demanding sailors.

A Privilège catamaran is more than just a yacht – it is a personal dream and a passion we share. Creating your perfect Privilège catamaran is a journey we will make together. That is why we look forward to accompanying your dream and inviting you to our shipyard in Les Sables d'Olonne.

In fact, we will stay by your side well beyond the handover. Take advantage of our skipper coaching, for instance. Once you join – you'll always be part of the Privilège family.

*an icon afloat*

The Privilège Signature 580 turns heads wherever it goes. Its progressive, modern design and bold lines amaze design enthusiasts and sailors alike. Every detail has been carefully weighed by our team.

*Sunpads, sofas and fine views make the flybridge a social centre of the boat*

Not only is the Privilège Signature 580 an icon of innovative design and modern living. It is also a superbly effective sailing machine and a luxurious home on the ocean. Crafted by hand with the greatest expertise, the yacht features only premium materials to satisfy the demands and preferences of the owner.

*make the world yours*

There is always a connection between the helmsman and everyone else on board

Thanks to a carefully designed bulkhead helm station, all the sail controls are within easy reach of the helmsperson. Even on watch, the skipper remains in close contact with the rest of the crew in the open cockpit lounge just below and to the flydeck.

*Harmony is the key to this boat – seamlessly blending the different spaces and activities on board*

State-of-the-art electronics reproduce all the key boat data at the helm and in the saloon below

A hard-top bimini option is available with glass panels that can easily be covered for shade

Lounging space is a key feature of this boat. A huge flybridge seating area with a coffee table allows the party to move upstairs into the open. And there's a breathtaking forward cockpit in the standard layout.

*one cockpit  
is not enough*

Across the length of nearly 60 feet, the Privilège Signature 580 features both a front and a rear cockpit. Exclusive, direct access to the owner's cabin turns the forward cockpit into a wonderful private refuge which you can reach comfortably and undisturbed in just a few steps.

The flydeck of the Privilège Signature 580 is your personal viewpoint to admire breathtaking coastlines or ocean sunsets. Here is where you can drink in the view or dream the day away with a sundowner in hand. And the best thing? It's yours alone.

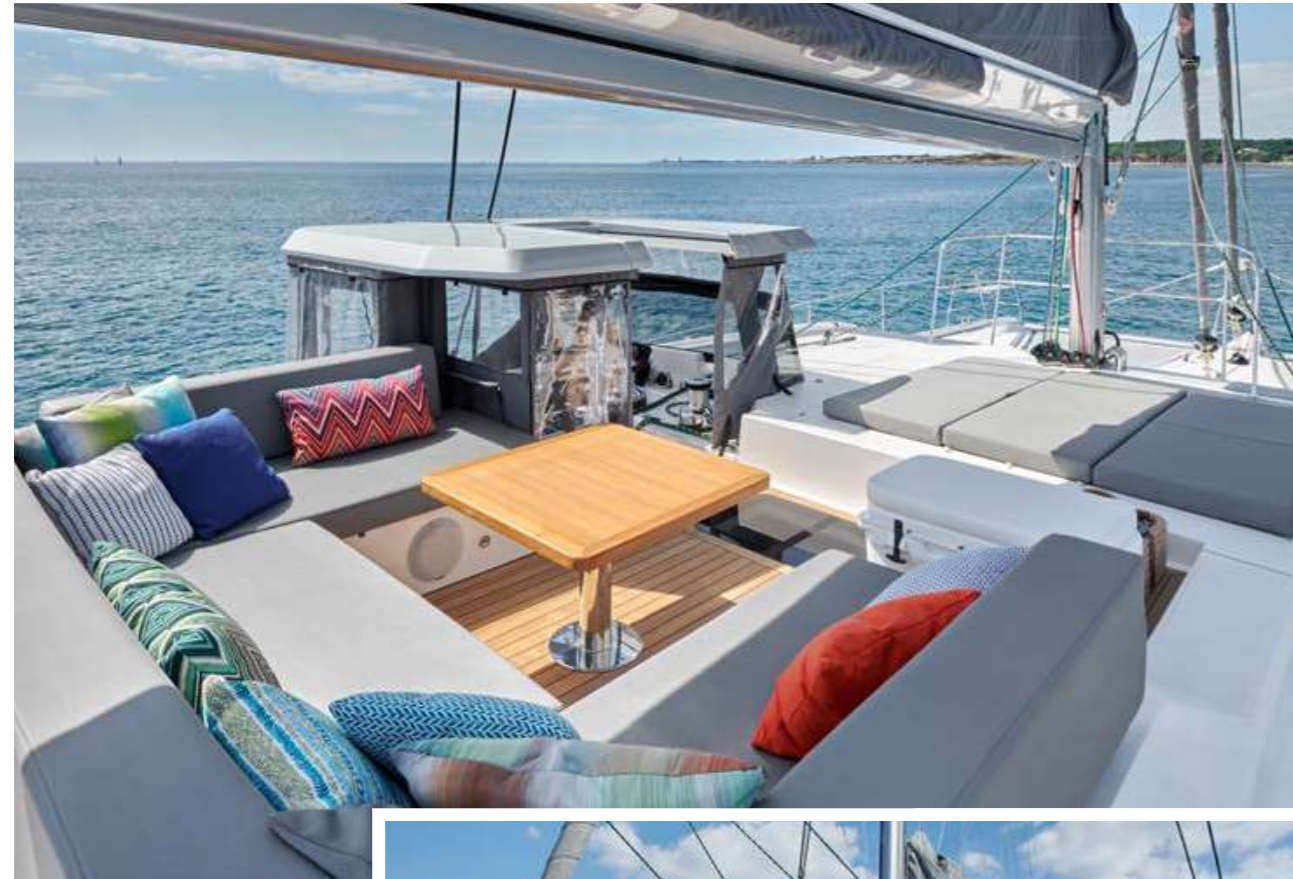

*home never felt so impressive*

When the midday sun becomes too much on the flydeck, you can seek shade and relaxation in the aft-end cockpit. Cosy seating landscapes invite you to while the time away in the most comfortable way.

High-end audio and a fridge make it easy to chill out on the flybridge

*All you need  
is a gentle kiss  
from the sun!*

## authentic

We believe that authenticity is the heart of *successful relationships*. Here at Privilège, that means genuinely connecting our customers with our craftspeople to create a unique blend of *your ideas and our know-how*.

It goes so much further than simply choosing fabric colours and wood finishes. This is about the *creative magic* that takes place when you *sketch out your wishes* for our experts to find new solutions drawn from their experience and their skills.

It is about *dialogue, and partnership*. It is about getting every element of the boat you have *always dreamed of*, in the safe, fast, high-quality package that envelops every Privilège catamaran. It is about enabling your *cruising ambitions*.

## individual

We are *not like other catamaran builders*. We don't churn out a steady stream of pre-defined boats that all look alike. Our range of stunning catamarans runs from 50ft in length to over 75ft, but *each one is unique*.

Haste is not in our nature. Our expert craftspeople take the time to build exactly right. That is why Privilège is able to *customise* its yachts to such an extent. We are not building by numbers on a relentless production line.

We are crafting *your exclusive vision*. And we understand how special that is. It's in our DNA.

## iconic

You don't come to Privilège for just another cruising catamaran, and we know it. You come to Privilège because you have something *unique and exceptional* in mind. Of course, it must be seaworthy to protect your loved ones, comfortable and fast. That goes without saying.

But the real reason you come to us is because you want something that will *stand the test of time*. A catamaran that will turn heads in anchorages and make other sailors wonder. A boat that will still be doing all this in 10 years time, and 10 years after that. We promise you a *true icon of the seas*.

THE PRIVILÈGE <sup>®</sup>  
*Yard*

It was personal pride rather than a life in boatbuilding which led Philippe Jeantot to set up Jeantot Marine in Les Sables d'Olonne in 1985. He exhibited his first yacht at the Paris boat show, and was overwhelmed with orders. This incredible response set him on the path to building Privilège.

He brought all his round-the-world sailing experience to bear, and developed a design that excelled in comfort, safety and cruising pleasure.

Now, after more than three decades, Privilège has become a leading builder of top-quality bluewater luxury cruising catamarans.

Meet the great team behind Privilège here

Marc Lombard has been the chief designer for Privilège since 1985. In that time, he has perfected the balance between performance, safety and comfort. "For more than 3 decades I have sailed and lived the Privilège dream. Every Privilège is designed and built to combine seaworthiness with comfort, luxury and pleasure, a true masterpiece on the sea."

Historically focused on racing, Marc Lombard was the very first naval architect to employ hydrodynamic specialists within his growing team.

## Marc Lombard

*I love to do hand sketches to get a first feeling for the spirit of the boat. Naval architecture is about making progress every day. We never pause, we never sit back:*

*We are constantly questioning our designs and seeking to improve them.*

*What I love most about sailing is the exceptional relationship with nature and the simple way of life that a sailing boat induces. I also like playing with the wind.*

Superyacht interior designer Franck Darnet is undoubtedly one of the world's most renowned interior designers for custom yachts and luxury hotels. "We design bright and attractive interiors to live in, which provide pleasure and a sense of space." His refined designs are found on every Privilège making them the most elegant multihulls today.

Franck grew up in a sailing family which included a designer, and so was always destined to follow a similar path.

## Franck Darnet

*My sources of inspiration are nature, art, architecture, fashion, cars... but the most important one is humankind.*

*I think human beings should be the centre of our attention.*

*our design statement*

*360° sea view loft*

## *Make the horizon yours!*

The saloon's stylish, elegant design is a delight for the senses. Each piece of furniture – from the chart table to the galley – has been perfectly positioned and beautifully finished. All-round windows let in plenty of wonderful natural light and turn the panorama into the backdrop for your life aboard.

Those who sail a Privilège Signature 580 across the seas know what it means to truly enjoy wide-open space and the freedom to go where you wish. Large-sized windows ensure this special pleasure is also experienced in the saloon.

*Beautiful hand-stitched upholstery contrasts with elegant wood detailing*

Franck Darnet has designed a contemporary sofa area that is for serves meals and work – you can lowering the saloon table for coffee, games or watching TV.

The centrally situated chart table is home to state-of-the-art navigation technology. It gives you a complete overview of the boat's systems and of navigation, all from the comfort of the saloon.

With the comfortable galley-down layout, an exclusive lounge area enlarges the exquisite saloon to the dimensions of a loft apartment. Direct access to the front and rear cockpits creates the enchanting sense of a luxury penthouse at sea.

*Open up the rear window and sliding door for ventilation and ambience in the saloon*

*Time is the biggest luxury, and the space to enjoy it*

Opt to put the galley down in the starboard hull, next to the crew cabin. This variant creates an impressive living and eating area in the saloon above, dedicated to private, comfortable living. All the hotel/crew space is also concentrated in a single hull.

*Natural light, ventilation and even an extractor hood keep the galley comfortable*

In fact, it's more of a kitchen than a traditional galley, with capabilities and styling that outshines many homes. Top-of-the-range equipment runs to a large electric oven and four-burner gas hob, lots of fridge and freezer space, coffee machines, microwave, dishwasher and more.

The layout on starboard makes for a larger galley with more worksurface space and storage units, for the cost of one guest cabin. There's also room for more refrigeration so that you can enjoy fresh food for longer on a blue-water cruise.

*A sensational galley to rival many kitchens*

# *Exclusive cabin concept*

You can find all detailed plans,  
layouts & specifications [here](#)

*stairway to heaven*

You'll fall in love with the spacious owner's cabin. Yes, it is elegant and stylish, but the highlight is undoubtedly its exclusive access to the private forward cockpit lounge. Natural light pours in through the opening hatch, where just a few steps bring you into the sun on deck.

The cabin itself is unparalleled. Finished in premium materials, the harmonious colour palette and an intelligent lighting concept allow for total relaxation. It's the perfect place to read, watch a movie or to doze undisturbed.

The main owner's suite has a separate toilet

Our designers have worked tirelessly to optimise the grandiose dimensions of the owner's cabin. The walk-around island bed offers all the comfort of home, with a broad view of the anchorage through full-width hull windows.

A line of comfy sofas fills the other wall with a chest of drawers and other intelligent storage. There's full-height wardrobe hanging space to keep your clothes in top condition, and plenty of dedicated drawers and lockers.

Space is king in the owner's suite. There's a private toilet off one end of the cabin, with a dedicated shower room at the other end. The rainforest shower and double basin all feature exclusive designer fittings.

*The owner's suite is  
an oasis of calm:  
a refuge to  
recharge yourself*

Located in the starboard bow, the additional crew cabin offers its own bathroom and has also a ladder system with direct access to the foredeck

Natural light floods in through side and aft windows

Small design details make all the difference – like this elegant LED reading lamp

Electric heads, thermostatic mixer taps and designer fittings feature in every bathroom

*Spacious cabins,  
en-suite bathrooms  
and a sea view –  
what more could  
your guests want  
to relax?*

Two spacious cabins at the aft end of each hull offer guests a first-class ambience with a wonderful view of the water. Elegant colours and stylish designs provide impressive living and comfort.

Full walk-around double beds make for a great night's sleep, while guests will be greeted by a view of the anchorage through the broad hull windows. Enjoy the refined indirect lighting concept, optional aircon and on-board entertainment systems. Once again, storage is excellent, with dedicated wardrobe space and lots of lockers.

Naturally, each guest cabin has its own generous ensuite bathroom. A separate glass-fronted shower offers superb comfort, and perfectly matches the designer fittings of the vanity unit and basin.

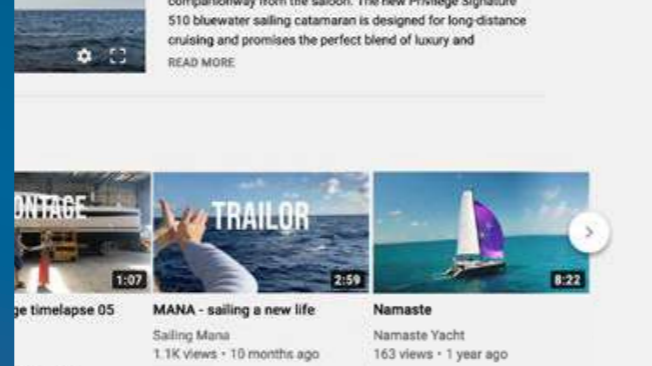

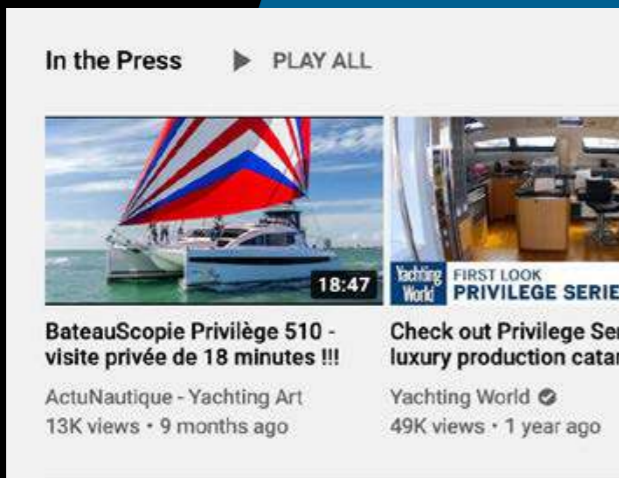

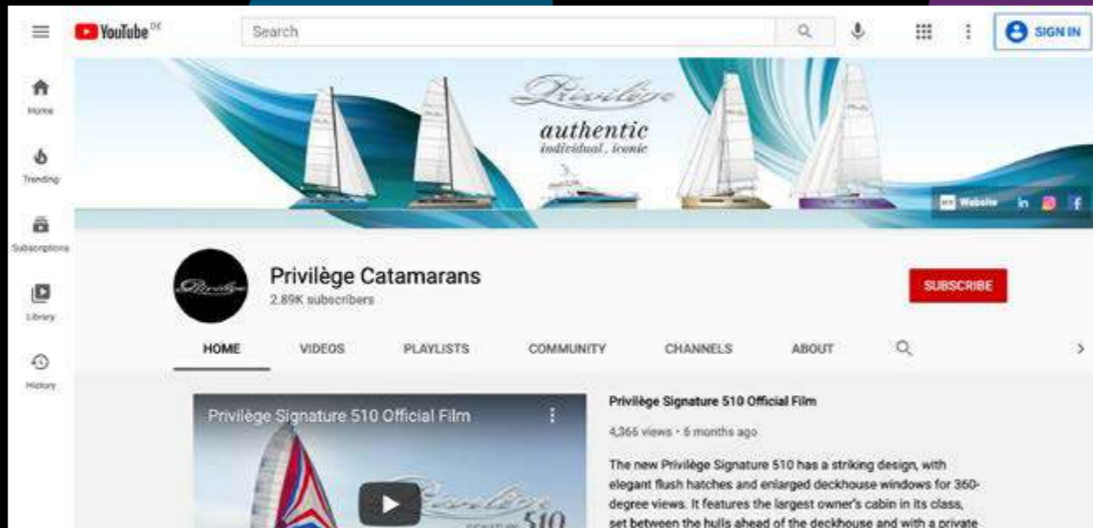

# individual style

Every Privilège yacht is a collaboration between your vision and our craftspeople, so no two boats look the same. It starts with your choice of colours and materials. Browse our lookbook, hold fabric samples in your hands at our yard. Let the world inspire you!

No detail is left to chance on a Privilège catamaran. As one of the most experienced yacht builders in the game, we only work with the best in the industry. That is why every boat is an icon of the seas. None more so than the Privilège Signature 580, the first in its class to offer direct access from the forward cockpit to the owner's cabin. This will be the catamaran that changed the game for good.
